

IN ONE MOMENT

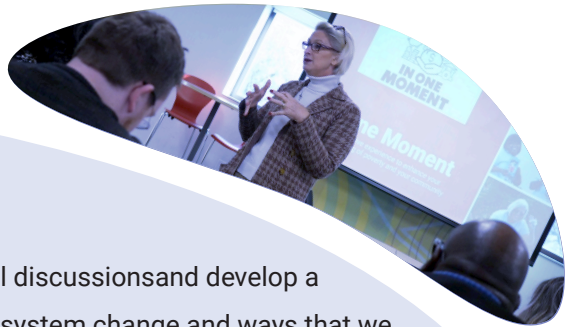

Impact Experiences are a powerful, experiential opportunity for people to learn about and engage in poverty awareness. This experience is designed to increase social awareness of the challenges living in poverty can present by giving participants a glimpse of the barriers faced by a low-income family surviving month to month.

In One Moment (30 – 45 minutes)

Participants will take part in a budget exercise, making a variety of decisions made by many working people in our community who are living below or just above the poverty line. Participants will focus on housing, healthcare, childcare and other essentials they will need. Unforeseen life events will force participants to make difficult decisions and changes to their budgets.

Through participating in *In One Moment*, your company or organization will benefit from:

- A Corporate Social Responsibility activity that can initiate meaningful discussions and develop a deeper understanding of poverty, resulting in conversations about system change and ways that we can all influence change.
- Unique team-building experience, helping to develop empathy and understanding among participants.
- Incorporate as a part of your team's diversity, equity, and inclusion training.
