

Frequently Asked Questions May 19, 2017

Q: If an organization proposes a single subgrantee project, where the subgrantee provides FES services and multiple contractors provide ECE services, does the proposal need to include a draft MOU as part of the submission?

A: Because there is only a single subgrantee, no MOU is needed at the time of submission. Contractors cannot be determined until after a contract is executed with UWCI and a procurement process is undertaken for selection.

Q: If an organization did not submit a letter of intent on May 1, can that organization still apply?

A: The letter of intent was optional so any organization is still eligible to apply.
